React | Node.js | Express

MongoDB | JWT | Vite

Nginx | PM2 | Git

Tailwind CSS | ImageKit.io

INTERESTS

- Exploring new web technologies
- Designing modern UIs
- Freelance development
- Open source learning

About Me

I am a Full-Stack Web Developer and BSCS student at COMSATS University Islamabad, Sahiwal Campus, with hands-on experience in building real-world applications. Alongside my studies, I actively take on freelance projects — from e-commerce platforms to crypto staking systems — delivering clean, scalable, and production-ready solutions using the MERN stack.

Projects

GWC — Global Wealth Community

MERN stack crypto staking & MLM referral platform, deployed on Contabo VPS with Nginx, PM2, SSL, and MongoDB Atlas. Features daily reward distribution, admin panel, and JWT authentication.

Stack: React | Node.js | MongoDB | Nginx | PM2

School Management System

Full-stack MERN application for school administration with fee tracking, receipt generation, student records, and role-based access control.

Stack: React | Express | MongoDB | JWT

ZAVE — E-Commerce Platform

MERN e-commerce store for a natural hair oil brand. Includes product listings, cart system, order management, and admin dashboard.

Stack: React | Node.js | MongoDB | Tailwind CSS

Gallery App

Image gallery web application using MERN stack and ImageKit.io for optimized media delivery. Wheat/brown Tailwind frontend with clean admin management.

Stack: React | ImageKit.io | Tailwind | MongoDB

Education

Bachelor of Science in Computer Science (BSCS)

COMSATS University Islamabad, Sahiwal Campus **2025 – 2029**

Intermediate (Pre-Engineering)

Post Graduate College Sahiwal **2023 – 2025**
